Dear David, and Matthew,

I wanted to take a moment and thank you for being much more than an IP telephone provider. You have created, installed, and support a customized working solution that makes our operation's ability to support our employees, clients, and potential clients amazing beyond belief. Whenever our business comes across a new type of communication problem, you've been very quick in providing solution possibilities and executing them. You guys are amazingly accessible, and really feel like a part of our team. I highly recommend Convergent Communications to be part of anyone's small business communications solution.

Sincerely

**Mike Levine**  
Franchise Owner
